

SEAHUNTER TOURNAMENT 45

SeaHunter Boat's Tournament 45 is designed for speed and long distance travel, and combines stability, comfort and efficiency. With greater square footage than any other center console fishing boat on the market, the layout is designed around a large fishing platform and a vast amount of easily accessible storage. The Tournament 45-foot cabin boasts a queen-sized bed, air conditioning, sink, head, television and microwave. This new model also features a large lounge area forward of the console with cooler space underneath. Other features include three large live wells and numerous seating options, including standard helm captains' chairs and second-row seating for up to four people. Each SeaHunter boat can be customized with a long list of available features to meet the needs and budget of the client.

SeaHunter's hull design is made for open seas and runs about 10 to 15 percent faster than regular V-bottom or stepped hulls. A sharp entry of 60 degrees and deadrise at the transom of 24.5 combined with oversized chines provides a smooth, dry ride at any speed. SeaHunter achieves this with a full, padded V-bottom with a stepped transom. The hull also is designed specifically for optimal depth finder performance at any speed. SeaHunter's famed tournament series fishing boats offer exceptional ride and legendary fit, finish and layouts. Everything is designed with performance and owner experience at the forefront. SeaHunter owners can expect more time on the water with high quality systems as well as excellent fuel economy resulting from a design that optimizes speed. **Contact:** SeaHunter at 800-KEY-BOAT or visit www.plantationboat.com.

VIKING 92 CONVERTIBLE

Launched in late summer, Viking's new flagship, their 92 Convertible, will be available in Open Bridge and Enclosed Bridge configurations. This new model features a stunning profile in either version with several motor yacht amenities including dual mezzanine decks -- one in the cockpit and the second on the main level after deck. The latter mezzanine offers both rear-facing lounge seating, along with a second seating area and a table for dining. An outside galley and grilling area also provided. The yacht's interior is blend of elegance and luxury. The 24-foot beam opens the salon to create massive living room with built-in furniture and luxurious appointments, including a 55-inch flat screen television that's concealed in walnut cabinetry. An L-shape island in the massive galley sports countertops of custom-selected granite. A walk-in pantry and a full day head are forward while to port there's a formal dining area that accommodates six.

The 92 Convertible features six staterooms, each with its own private head and shower. The full beam master suite features a king-size walk-around bed, a walk-in closet, a dressing table, and his and her private facilities. Crew's quarters are aft with access from the cockpit and this full beam area includes a head with a shower, a small galley area, and upper and lower berths in a private cabin. Power options available include Caterpillar and MTU engines while communication, navigation and entertainment electronic packages will be designed and installed by Viking's sister company, Atlantic Marine Electronics. Custom tuna towers are designed and fabricated by Palm Beach Towers, also a Viking subsidiary. **Contact:** Viking Yachts at 609-296-6000 or visit www.vikingyachts.com.
