

viking 41

CONVERTIBLE

Whether at dockside or 70 miles offshore, the all new Viking 41 commands the respect of discerning yachtsmen. With her turbocharged diesels, she can cover more territory in one day than most boats can in a weekend and her supe-

rior hull design provides a soft, dry ride enabling the miles to slip by effortlessly.

The moment you step aboard at dockside, her huge cockpit quickly identifies the 41' as a premier fishing machine. Fishing equipment such as recessed fishboxes, molded tackle cabinets with sink, cockpit ice chest or freezer, rod holders, sea water washdown, cockpit controls, outriggers, fish door, fighting chair, etc., let you equip her to satisfy your every need.

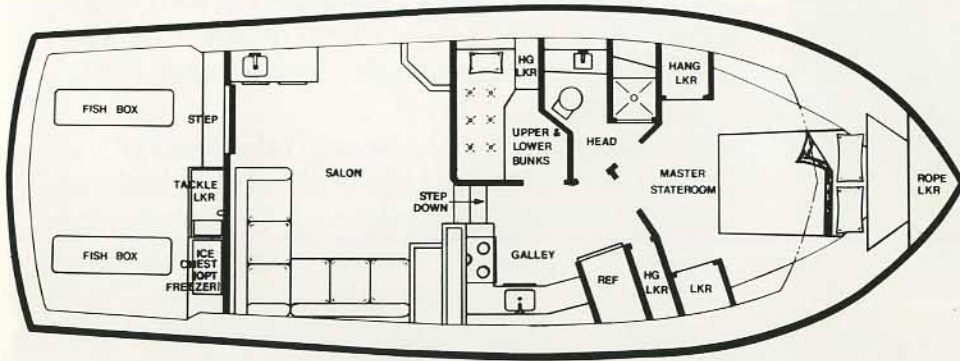

But ladies don't despair. The interior of this yacht makes you feel like you just checked into an elegant European hotel suite. Custom furniture and drapes, teak trim and rich carpeting quickly lead to a feeling of warmth and richness. The built-in entertainment center with wet bar and icemaker further accents the spacious salon. Moving forward, two steps take you down to the fully equipped L-shaped galley located to starboard. Everything from a simple sandwich to a gourmet meal can be prepared quickly and easily. Directly across to port is a large U-shaped dinette.

If two private sleeping areas are desirable, an optional master stateroom located in the bow features a walk around queen-size bed, with spacious storage drawers and lockers. To port is an enclosed head and separate shower with access from the optional master stateroom or companionway. The guest stateroom located directly across from galley features upper and lower bunks with a hanging locker and spacious storage drawers necessary for extended cruising.

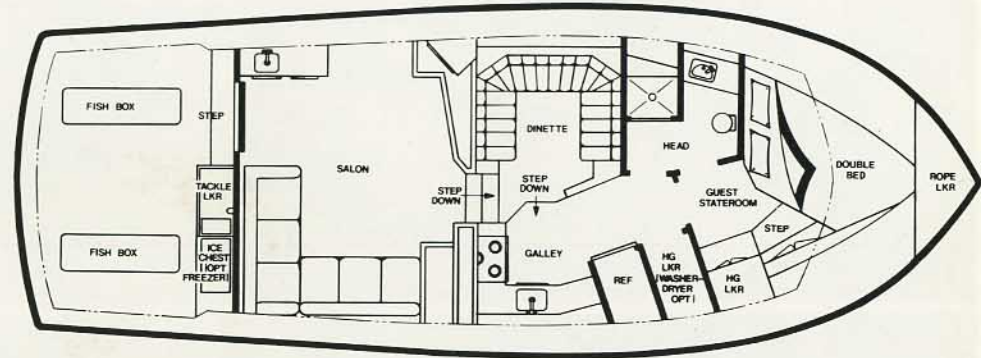

For those yachtsmen desiring outstanding performance and luxury, the Viking 41' was designed and built for you.
