

VIKING 50 BILLFISH

INTERIOR COMFORT

The 50 Billfish gives owners a bright, practical salon, galley and dinette built for real time aboard. Horizontal-grain walnut, available in gloss or satin finish, Amtico teak-and-holly flooring, large windows and a split-galley layout create a warm, open space.

The raised dinette and salon seating give owners and guests a comfortable place to gather between runs. Below, the forward master adds privacy, storage and an island queen berth for overnight comfort after a long day offshore.

FISH FIRST

The cockpit is one of the boat's strongest features. At 170 square feet, it gives the crew room to move, work lines and fight fish without crowding the action. Available teak, a fighting chair, mezzanine seating, fishboxes, refrigeration, freezer storage and tackle stowage support a serious offshore program.

The two-stateroom layout can include a dedicated rod-and-tackle center below. It keeps rods, reels, tackle and gear organized, protected and close at hand. Excellent engine and machinery access keeps daily checks and service straightforward.

OPEN COMMAND

The open bridge keeps the captain connected to the water and the cockpit, with excellent visibility from the center console walkaround helm. The streamlined console puts electronics and controls within easy reach, with room to move and ample seating for crew and guests.

From the helm, the captain can watch the spread and the cockpit, while the crew has a clear path from the bridge ladder to the transom. The layout supports fast communication, quick movement and clean cockpit work. And the best seat in the house is the forward lounge.
