VIKING UNVEILS THE 50 OPEN EXPRESS

Performance, Comfort and Versatility in a Sleek New Design.

The Viking Yacht Company proudly introduces the 50 Open Express, a bold new addition to its lineup that delivers style, strength and innovation. The Open Express is designed for owners who want high-performance capability, luxurious comfort and serious sportfishing functionality in one sleek, modern package.

The 50 Open Express is one of four new models in Viking's 50 Series, which also includes the 50 Convertible, 50 Billfish and 50 Sport Coupe/Sport Tower – each designed to meet the needs of a wide range of boaters, from hardcore anglers to cruising families.

This model features a wraparound windshield, integrated hardtop and raised command deck with excellent sightlines. The operator stays fully connected to the cockpit and fishing action – and everyone enjoys the comfort of a salon-like environment that features ample two dinettes and generous seating. For added flexibility, a custom Costa Clear enclosure can be fitted to fully or partially enclose the command deck, enhancing the boat's versatility in any weather.

Anglers will appreciate the in-deck fish boxes, a raised transom live well, and cooler and freezer storage beneath the mezzanine – all seamlessly integrated into the cockpit for tournament-level functionality and everyday convenience.

A tower is also available, offering elevated visibility and fish-spotting advantages offshore. Flush-mounted displays, a helm pod with Palm Beach-style controls and a one-piece windshield give the captain clean sightlines and intuitive command of the vessel.

Below deck, Viking's reputation for premium craftsmanship shines through. The two-stateroom layout includes a forward master suite with queen or crossover berths and a guest stateroom

with upper and lower bunks. The ensuite master head includes a separate shower and salon access for convenience. The port-side day head can also be used as a rod/tackle locker. The fully equipped L-shaped galley, port-side dinette and optional Pullman bunk or rod storage area round out a versatile and stylish interior.

Built with Viking's renowned attention to detail and structural integrity, the 50 Open Express begins with a resin-infused fiberglass hull that ensures strength without excess weight. Also resin infused, the structural bulkheads and custom fiberglass fuel tanks are engineered for durability and strength. Throughout the yacht, Viking uses purpose-specific materials and methods tailored for each area of the boat.

Advanced techniques like Light Resin Transfer Molding (LRTM) are used to create parts such as hatches and doors, ensuring a consistent, high-quality fit and finish. The result is a quieter, stronger and more refined vessel that performs beautifully and stands the test of time.

Twin MAN 1200MHP engines provide the power, pushing the 50 Open Express' refined running surface that's designed for maximum speed and efficiency.

Owners also benefit from Viking's vertically integrated subsidiaries, Atlantic Marine Electronics and Palm Beach Towers, which provide factory-installed electronics packages and towers for a seamless, turnkey experience.

“The 50 Open Express delivers everything today's owner wants – from the layout to the fishing to the performance and engineering,” says Viking President and CEO Pat Healey. “It reflects our relentless commitment to building a better boat every day.”

SPECIFICATION HIGHLIGHTS

Length Overall	51' 8"	15.75 m
Length w/ Bow Pulpit	55' 10"	17.02 m
Length Waterline	44' 8"	13.61 m
Beam Overall	17' 1"	5.21 m
Beam Waterline	14' 2"	4.32 m
Deadrise at Transom	11.7 deg	
Draft	4' 9"	1.45 m
Freeboard Forward	6' 6"	1.98 m
Freeboard Aft	3' 0"	0.91 m
Height Waterline to Top of Hardtop Masthead Light	13' 8"	4.17 m
Height Waterline to Top of Hardtop	11' 8"	3.56 m
Displacement Standard Fuel Load	63,283 lb.	28,705 kg
Fuel Capacity Standard	1,000 gal.	3,785 l
Fuel Capacity Optional	1,200 gal.	4,542 l
Water Capacity	180 gal.	681 l
Holding Tank Capacity	52 gal.	197 l
Cockpit Area	131 sq. ft.	12.2 sq. m

“ If you want a classic open express, this is it — simple, clean and built for the owner-operator. You’ve got great cockpit access and you can add a tower for a bad-ass fishing setup. It’s a proven design that still turns heads and delivers the experience people love. ”

- Pat Healey
Viking President and CEO

DISCOVER THE VIKING DIFFERENCE – EXPERIENCE AND PRIDE.

The Viking Yacht Company is located on New Jersey's Bass River, a winding marsh-lined tributary, which feeds into the Mullica River and flows into the Great Bay. About 50 minutes by boat to Atlantic City, the wilderness of the Bass River is a stark contrast to the leading-edge technology that precedes every Viking leaving New Gretna. Building a better boat every day has been Viking's philosophy for over six decades, and this is why Viking leads the industry today in performance, innovation, engineering and luxury. And Viking will also lead tomorrow because its commitment to excellence is reflected in the "Viking Difference."

Family Business: Viking Yachts answers only to its unyielding commitment to build the finest boats money can buy. Brothers Bill and Bob Healey founded the Viking Yacht Company in 1964 and it remains family owned and operated. Bill's son, Patrick Healey, is the President and CEO of the Viking Yacht Company. Robert Healey Jr., who is Bob's son, is Chairman. Pat's children – Sean, Justin and Kaitlyn – represent the third generation and are actively involved in the day-to-day operations of the company.

State-of-the-Art Facilities: The Viking plants in New Gretna and Mullica stand out as the pinnacle of boat manufacturing achievement, with modern buildings, state-of-the-art machinery and the space to build over 30 models up to 90 feet. From multiple CNC routers for cutting composite and wood parts to a \$1 million five-axis profiler, which creates foam plugs to build complex molds, Viking clearly defines cutting edge. And yet, with a dedicated, talented and skilled workforce, the human element is equally dynamic. Our key personnel in manufacturing, design and engineering, sales and human resources have been working together for decades.

Front and Center: An engineering-driven company, Viking thrives on the pulse of innovation and the

development of new and exciting product. We have the youngest fleet in the marine industry that consists of ground-breaking boats. Our passion for boatbuilding, innovation and presenting fresh new models to our owners led to the development of a Viking brand of outboard-powered boats. The Valhalla Boatworks high-performance luxury outboard-powered boats have grown swiftly since their inception in 2019 and now include multiple models up to 55 feet.

In-House Manufacturing: The vast majority of every Viking is designed and manufactured in-house, resulting in the production of the world's finest yachts. Whether it is a fiberglass fuel tank, a wiring harness labeled every eight inches or a hull-to-deck joint through-bolted every three inches, you can be sure of incomparable quality.

Total Focus: The Viking demonstrator boat program plays a crucial role in carrying out the company mantra of building a better boat every day. Competition in big-game tournaments around the world helps Viking show our boats, learn from them, improve them, support the Viking customer base, represent the company globally and maintain and grow its leading position in the industry.

Quality Control: Viking holds an inherent quality control advantage because the company manufactures most of the yacht's components in-house. In addition, dedicated personnel thoroughly inspect each yacht during the build process. This type of attention to detail ensures greater reliability, safety and customer satisfaction.

Domestic and International Support: We often say that we have the best dealer network in the world – and for good reason. Between our domestic and international network, we have 20 dealers spread across dozens of locations throughout the world – and many of them have been part of our family for more than 30 years.

Finest Service: Experienced service personnel with an intimate knowledge of onboard systems stand behind every Viking Yacht. You never go to sea alone when you own a Viking. In addition to the Viking Customer Service Department and Viking Yachting Center in New Gretna, we operate the Viking Yacht Service Center and the Viking International Yacht Center on the Intracoastal Waterway in Riviera Beach, Florida. It's just minutes from Palm Beach Inlet; our two service complexes handle warranty, fiberglass, running gear repairs and much more. Staffed by Viking-trained professionals, Viking is the only manufacturer to provide its owners with a satellite facility solely for their convenience.

Resale: Top-shelf engineering enables Vikings to deliver value, not only when you are using it, but at resale time as well.

Vertical Integration: To complement the Viking experience, we have two sister companies. Palm Beach Towers designs and crafts the finest aluminum tuna towers, custom railings, fiberglass hardtops, dropdown electronic boxes, flush-mounted electric teaser reels and a host of other specialized items. Atlantic Marine Electronics is the premier source for Viking installed navigation, communication and entertainment equipment. By specifying Palm Beach Towers and Atlantic Marine Electronics for your accessories, you are assured one-stop shopping and will enjoy the absolute bliss of taking delivery of your new Viking turnkey ready.

Lead Not Follow: In the marine industry, we don't just raise the bar. We are the bar. Viking incorporates the best in design and performance to manufacture the finest semi-custom boats in the world. From technical advancements like virtual tank testing and designer touches such as curved doorways and exquisite joinery, Vikings are the epitome of luxury and seagoing excellence. Come visit our family of boatbuilders and discover the Viking Difference.

Please contact your Viking dealer to arrange a sea trial and a tour of our modern facility on the Bass River near Atlantic City.
